16 October 1949

- 25X1 1. The former factory airfield of the WISMAR (M 54/T 49) Dornier Plant was not occupied by Soviet Air Force troops but was used by a local garrison and was guarded by sentries wearing red-bordered, black epaulets.

Early November 1949

2. The field was not occupied by the Soviet Air Force. The hangars were destroyed and the runway was intact but in bad condition.

25X1 Comment:

The information on the condition of the field agrees with previous reports. An air unit is not assumed to be stationed there. There are no indications that the field is intended to be again put into operation.
